

## Implementing the BEST<sup>2</sup> Assessment™ for Your Team/Organization

We are excited to be implementing the automated BEST<sup>2</sup> Assessment™ within our client organizations. It serves as a fast, efficient – yet comprehensive – means for improving the dynamics within a team or work group.

Our inventory serves as a great tool for:

- Understanding self and others
- Determining the mix of styles within a given team
- Improving communication methods and processes
- Working through conflict and misunderstanding
- Putting people in a better position to be successful

Learning Curve Consultants® is happy to educate you further about the assessment and its potential uses. We would love the opportunity to chat with you about how you can implement it within your organization.

If you are interested in learning more about our assessment and would like to see its value firsthand, please email us at [BEST@lc-consultants.com](mailto:BEST@lc-consultants.com).

We look forward to helping you be your BEST and Unleash Your Talent®.
