

Welcome to the MindVue Learning Experience Platform (LXP)

MindVue is an online SaaS learning experience platform (LXP) ideal for any type and size of organization, delivering personalized training content to build mindset skills which will help optimize performance and improve mental wellness. Unlike traditional learning management systems that typically involve mandatory training or compliance, our users are able to control the content, choose which skills to focus on, and collaborate with others.

MindVue measures non-cognitive factors research suggests are predictive of human excellence and have been shown to predict:

- Workplace performance
- Leadership success
- Academic success
- Sport performance
- Physical health and well-being
- Financial success

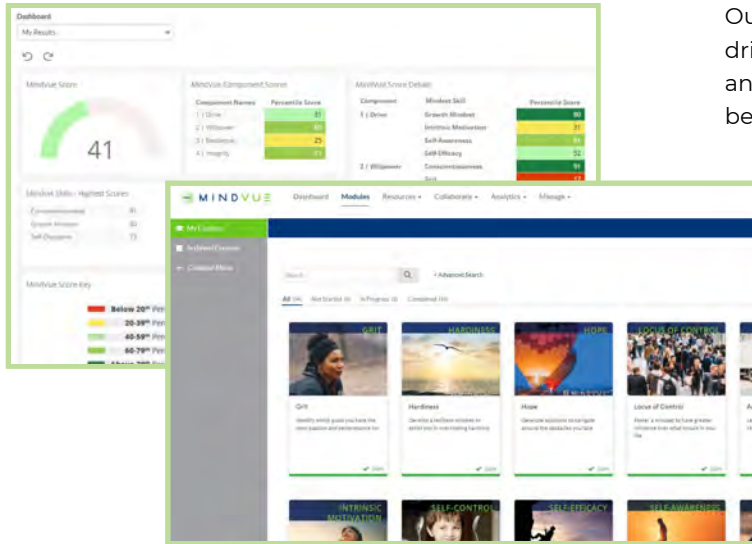

- Crit
- Self-Control
- Resilience
- Adaptability
- Intrinsic Motivation
- Self-Discipline
- Integrity
- Internal Locus of Control
- Conscientiousness
- Self-Awareness
- Growth Mindset
- Self-Efficacy
- Hope

Building the right mindset skills at the right time.

MindVue measures the 13 mindset skills and then utilizes artificial intelligence to deliver personalized training content to the user's mobile device. The platform provides analytics to help understand individuals' current mindsets — as well as the collective group or team's mindset — and provides customized recommendations to build the skills that will optimize performance and improve mental wellness.

It's time for a new outlook—start with the MindVue platform

Our mindset is our greatest asset—it fuels performance and drives motivation. It's the source of grit and hope, resilience and determination. The highest levels of performance will only be possible with a powerful mindset.

The MindVue key differentiators:

- Evidence-based and scientifically-validated
- State-of-the-art behavioral science combined with cutting-edge technology solutions
- Mobile-friendly
- Gamification and incentivized to increase engagement
- Personalized training content delivered via mobile phone
- Targeted intervention as opposed to “one-size-fits-all”
- Demonstrative customer ROI

We utilize our cutting-edge technology, metrics, and learning solutions to help individuals and teams in:

Business

Identify and build a high-performing workforce.

Sports

Build a team of champions.

Education

Develop a proactive approach to student success.

Military

Optimize performance among all ranks.

What we can measure, we can manage.

Build the skills that drive exceptional human performance. Our coaching services, workshops, and keynotes offer the opportunity to inspire excellence in every audience. Whether a corporation, sports franchise, or educational institution, MindVue will help build the skills that matter most.

Coaching

Individual meetings tailored to achieve the goals identified by the MindVue Profile.

Workshops

Half- and full-day experiential workshops to build the skills driving exceptional performance.

Speaking

30- to 90-minute presentations or webinars to motivate, inspire, and empower audiences of any size.
